

Rang 3 Work for week 8/6/20 – 12/6/20

Monday 8/6/20

Spellwell Pg 70 Exercise A: (a-l)

Litrigh É Linn: Pg 64 Ex2. Learn first two spellings(breithlá(birthday)&féasta(party))

Mathemagic:Pg149 Qs1-3

Tables: 6 times multiplication tables revision

Tuesday 9/6/20

Spellwell Pg 70 Exercise A(m-x)

Litrigh É Linn: Pg 65 Ex.3. Learn the next two spellings(cárta(card)&cáca(cake))

Tables: 7 times multiplication tables revision

Mathemagic: Pg149 Qs 4-6

Wednesday 10/6/20

Spellwell Pg 71 Exercise B

Litrigh É Linn Pg 65 Ex 4. Learn the next two spellings(bronntanis(present)&coinnle(candles))

Tables: 8 times multiplication tables revision

Mathemagic:Pg150 Qs 1-5

Thursday 11/6/20

Spellwell Pg 71 Exercise C.

Litrigh É Linn Pg65 Ex 5. Learn the last two spellings(balúin(balloons)&cuireadh(invitation)).

Tables:9 times multiplication tables revision

Mathemagic:Pg150 Qs 6-10

Friday 12/6/20

Spellwell Pg 72 Exercise D (No test this week)

Litrigh É Linn: Pg 64.Learn all spellings(Parent/older sibling may administer test if available)

Tables: 10 times multiplication tables revision

Dear Parent

I hope everybody is well. As you can see from the sheet above it is a much slimmed down schedule this week to reflect the time of year we are at. We are still looking at multiplying bigger numbers this week in maths so along with reading I would really like if the children focused their efforts on that. On Seesaw this week I will put up 3 short maths tutorial videos on Monday, Wednesday and Thursday morning in relation to multiplication. I will also post two assignments on Tuesday and Thursday morning. It was great to see all the work sent in last week so let's keep it going as this will be our last week of fully academic focused work. I have also cut down on the amount of extra optional work this week but the following are some ideas for people who may want additional work for their children this week:

Reading:

I think each student should be well able to read for 30 minutes each weekday now especially as our reader is finished. A good number of students accessed their accounts the past 6 weeks but for anyone who didn't and there's a device available please encourage them to access their AR accounts using the link below. <https://ukhosted11.renlearn.co.uk/6657860/> **(if anyone has forgotten their passwords I can forward them onto them)**

English:

I'm not posting any additional work for literacy this week. Instead I would like to encourage everyone to get involved in this year's writing competition for Rang 3 and Rang 4. It's an essay or poem and its title is 'A Day to Remember'. The closing date for the competition is this coming Friday 12th June. We have some great writers in our class so hopefully as many people as possible in the class will engage with this. The quality of entries is extremely high every year so it would be great to keep the tradition going. Each entry has to be typed and then emailed to principal@stlachtainsns.ie

Gaeilge:

For anyone who didn't get to collect their Irish book yet to access Sin é!3 online you need to go to www.edcolearning.ie. Once in the site you then have to enter a username and a password. You can find these on the homepage but in case you can see them the username is primaryedcobooks and the password is edco2020. The following is the work I would like the children to do this week-

-Tuesday:pg 166:Bairbiciú Cois Traá! (Barbecue on the beach)Read through the story and do the sentences that follow on Pg 168.Líon na bearnaí (fill in the gaps)

-Wednesday Pg168:Foghraíocht-úr, ún, ín agus ís .Put the words into the correct boxes.

-Thursday: Pg 169.Cóisir Labaí(Labaí's party).read through the invitation to Labaí's party at the top of the page and then complete the template for your own birthday party underneath.

Maths: We will continue to work from our Mathemagic 3 this week looking at multiplication. As stated previously CJ Fallon have made it free to access all their books so for anyone who didn't collect their books the following is the link to access it:

Mathemagic link: <https://my.cjfallon.ie/dashboard/student-resources>

Multiplying big numbers can be a challenging topic for children so that should be the priority again this week. Hopefully the videos on Seesaw will be of some help to people.

- A new maths website I came across lately is ixl maths. It's a great website, in particular if your child struggles a bit with maths there's some really useful activities there. The link to access it is <https://ie.ixl.com/math/class-3>
- Topmarks is a great free English website for interactive games. You can access this using the following link: <https://www.topmarks.co.uk/maths-games/hit-the-button> (Third grade is the same as third class if you're wondering what level the children are at).

Another great website pointed out to me by another member of staff is Toolkit4Maths which has some brilliant games for all areas of the maths curriculum and can be found at the following link <https://toolkit4maths.com/>

PE: . In my previous posts I suggested a number of links including Joe Wicks, GoNoodle and Donna Dunne Fitness to keep active. T.J Reid is still running his two free Facebook Live classes a week for children that mix GAA skills and fitness.

For this weeks challenge for our GAA players I'd like again to tie it in to 'Our Future Club Stars' competition which they county board started running this week. It's for u-13 players so I've made the challenge slightly easier for our class:

-This challenge again needs a wall and will focus on catching a ball safely and cleanly (not dropped). A tennis ball is easier for this activity so what you are trying to do is hit the ball off the wall and catch it but also get your hurl up behind your hand to protect it as if somebody was coming from behind you to challenge for it. The measure for success is how many clean catches you can get in a row; there are no time constraints for this one! (It doesn't count if you don't get your hurl up behind your hand!!)

Finally if there's anything again anyone wants help with or is worried about please email me at pflood@stlachtainsns.ie . Feel free to send me on anything your child has completed at home, even if it isn't work prescribed by me, great to see some of the non curricular activities the children get up to; baking, fishing etc. As stated above for the last two weeks the focus will be more on active and creative topics which I'm sure will be a welcome relief to all parents at this stage!!

Continue to enjoy this family time together and make use of the outdoors!!

Kind Regards, Mr.Flood.
