Litrigh É Linn: Pg 42. Revision of spellings (Parent/older sibling may administer test if available,8 spellings !)

Maths Pg 98 (All work in your copies here please!)

Tables: 12 times division tables revision

Dear Parent,

Again this week the work is in the same format so if possible try and print out the sheet above so the children have that as their guide. **The main focus of the children's additional work this week should be completing the work for Engineers Week:**

Seesaw:

Same plan this week; I will be posting activities every morning. (Note activities and Irish videos with instructions in activity section, Maths and Literacy video tutorials in Journal section!) I will also be adding a creative writing activity this Tuesday. For Engineers Week there will be activities on Wednesday and Thursday and all the details are below.

STEM Activities (Engineering Week)

It is STEPS Engineers Week this week. I will be posting two activities for the children again this week on Wednesday and Thursday and it would be great if your child could try and complete at least one of them, I got some brilliant pictures sent in last week. We as a school are putting together a folder of all the children's work for this week and if you could please send me on a picture of your child's work to add to this. **Its pictures not videos I'm hoping for and if possible send them on as a screenshot via email rather than uploading them to Seesaw.**

Monday 12pm-12.45pm: Shanda McCloskey

I have registered the class for for the South-East Engineering Festival through WIT. The book author events will be streamed live and unfortunately due to GDPR can't be recorded. I know this won't suit everyone with the time it's at and lack of devices but anyone that can, I would encourage them to try and log on for this.

Shanda's fun session begins with an overview of modern robots and drones and the book she was inspired to write because of them. She will read from her book and demonstrate step-by-step how to draw one of her characters. Lastly, she will answer any questions from pupils and challenge them to design their own robot which can be shared by parents or their teachers on Twitter or Facebook by using the #EngFestSE or @EngFestSE. With 5 prizes up for grabs.

Please visit the following page for the live stream: http://engfest.ie/?page_id=306

(note: this page is for all live-streamed events and may not hold details of your registered event until the starting date/time) **After the event, there will be 5 prizes given to pupils for their drawings for Shanda's Robot . Parents can share drawings on behalf of students by getting in touch with WIT's pages on Twitter or Facebook ensuring they use #EngFestSE or @EngFestSE**

Reading/Literacy:

I think each student should continue to try to read for half an hour each day. **With hopefully only two weeks till we return to school the children should try and get back into the habit of taking AR tests for the next fortnight.**

- To access their AR login at: <https://ukhosted11.renlearn.co.uk/6657860/> (if anyone has forgotten their passwords I can forward them onto them)
- If anyone wants to check out how much points their book is/ZPD level they can do so at <https://www.arbookfind.co.uk/UserType.aspx?RedirectURL=%2fdefault.aspx>

Gaeilge: The children may find the following vocabulary a help for their work this week:

Page 132: tocht=mattress sa tarraicéan=in the drawer, faoin=under &in aice leis an=beside

Page 133: gliondar croí=delight, Bainim=I take off

Page 134: Chuala na páistí=The children heard, Go tobann=suddenly

Maths:

We will be looking at Area and Symmetry all this week. The following is a link the children might find helpful: <https://ie.ixl.com/math/class-4>. Check out O.19 &O.20 UNDER THE Geometry heading for some fun exercise on Symmetry.

PE: Continue with our 100 pucks a day! (I will again upload the link on Seesaw for this week's coached GAA video). I will post a PE class Thursday on Seesaw but the following are free PE videos from McSport if your child would like to try them out during the week. As these classes are all done by well known sports stars I think the children would really relate to them so definitely worth a look!

<https://www.mcsport.ie/pages/pe-classes-with-mcsport>

Social Zoom Call: I will host two social Zoom calls again this week, same days and times as previous:(Boys on Wednesday at 5pm and Girls on Thursday at 5pm).

Finally if there's anything anyone wants help with or is worried about feel free to email me at pflood@stlachtainsns.ie and I will get back to you as soon as possible.

Regards, Mr.Flood.
