Maths Pg 79 (Questions 8 and 9 in your Maths copies, the rest can be done in your books!)

Tables: 6 times division tables revision

Bua na Cainte Pg 114(The Weekend;fill in all the gaps.)

Dear Parent,

Again this week the work is in the same format so if possible try and print out the sheet above so the children have that as their guide. The following are some ideas for people who may want additional work for their children:

Seesaw:

Same plan as last week; I will be posting activities every morning. I will also be posting daily videos that tie in with the new work that the children will be doing in their textbooks. Again this week feel free to send on any work your child has completed or anything they are getting up to that I can correct and add to their assessment profiles, great to see all the hard work the children completed so far! (Note activities in activity section, video tutorials in Journal section!)

Reading/Literacy:

Gill the company which produces our readers and skills books have made their website free for the duration of the lockdown and have a number of resources available which tie in with the work the children will be doing this week. You simply go to their website, click primary, then click English and you can see the menu of resources available. Their website can be found by clicking on the link below:

<https://www.gillexplore.ie/products>

I think each student should be able to read for half an hour each day. There haven't been many pupils taking AR tests since we started back and it would be great if all the students tried to login and do a test this week.

- To access their AR login at :<https://ukhosted11.renlearn.co.uk/6657860/> (if anyone has forgotten their passwords I can forward them onto them)
- If anyone wants to check out how much points their book is they can do so at <https://www.arbookfind.co.uk/UserType.aspx?RedirectURL=%2fdefault.aspx>

Gaeilge:

The children again have their main body of work in their work plan for the week. Edco Learning have also made their website free for the lockdown. You simply go their website and use **edcotrial** for both the username and password. There is a nice song (Is Mise Fear an Cheoil Pg 111) which we would have done this week and it might be nice for the children to hear it sang on the Edco website so as to hear the proper pronunciation. The following is some vocabulary which might help out with their work this week:

Page 109: garda tarrthála =lifeguard

Feadóg=whistle

1.Bain=to take/remove 2.Cuir=to put 3.Bris =to break

Page 110: seinn = to play(musically)

Page 112:An Cheolchoirm=The Concert

1.Can=to sing 2.Glan =to clean 3.Tóg=to take

Maths:

We will be looking at Length and Decimals this week. I don't envisage these being problematic chapters but if you would like additional resources Folens have made all their resources free, they have digital activities, eBooks, printouts and many more resources available to go along with their textbooks and some of their maths resources look really good. To access these resources register as a teacher and enter our school roll number which is 00796U. The link is below

- <https://www.folens.ie/>
- Topmarks is a great free English website for interactive games. You can access this using the following link: <https://www.topmarks.co.uk/maths-games/hit-the-button> (4th grade is the same as 4th class if you're wondering what level the children are at)
- <https://www.timestables.com/1-minute-test/> Something the children have really enjoyed this year was 'tables champ'. The link above is an interactive test which the children may enjoy to practise their tables.

PE: . Donna Dunne will continue to do her two free exercise classes for children every day of this lockdown at 9am and 12pm. Joe Wicks is also doing free classes on Youtube and I will upload some PE ideas on Thursday to Seesaw based on his classes.

Project Work: We have been working on 'The Vikings' in history the past two weeks and I have always found children to have had a big interest in this civilization. Totally optional and no requirement to get any materials but I thought the children might do a project on them this week perhaps on the back of an old poster or any paper that's available at home. Twinkl is free at the moment if you want your child to do some research: www.twinkl.ie

Finally if there's anything anyone wants help with or is worried about feel free to email me at pflood@stlachtainsns.ie and I will get back to you as soon as possible. It was great to see the volume of work sent in the past weeks and I look forward to seeing even more of it this coming week. **Just again, there are still a very small number of parents using Seesaw who haven't sent me on the GDPR letter yet, if you could please send that onto me ASAP it would be great.**

Regards, Mr.Flood.
