

I will add and subtract amounts of money.

A True or false? ✓ or ✗.

- $€2 - 20c - 10c = €1.60$
- $€1 - 10c - 5c = €0.85$
- $€2 - €1 - 20c = €0.80$
- $€1.50 - 20c - 20c - 10c = €1.05$
- $€2 - 20c - 20c - 5c = €0.65$

B Fill in the amounts on the blank coins.

- Which 2 coins make up 12c?
- Which 3 coins make up 115c?
- Which 3 coins make up 17c?
- Which 5 coins make up 108c?
- Which 5 coins make up €1.16?
- Which 3 coins make up 62c?
- Which 7 coins make up 106c?
- Which 6 coins make up €1.18?
- Which 10 coins make up 65c?
- Which 9 coins make up €1.58?

C In your copy. Amy bought a toy using only coins.

It cost her 45c. There are 8 different ways to pay 45c exactly using only the above coins. Find as many as you can.
