

I will learn
about litres.

A True or false? ✓ or ✗.

1. Yogurt is measured using litres.
2. Large bottles of milk are measured using litres.
3. A swimming pool is measured using litres.
4. A cup of tea is measured using litres.
5. A fish tank is measured using litres.

B Do we use litres or millilitres to measure the following?

	millilitre	litre
cup		
fish tank		
large bottle of cola		
bucket		
jug		
juice carton		
swimming pool		

C Estimate and then measure how much water each of the following can hold.

object	estimate (✓)				measurement
	> litre	1 litre	$\frac{1}{2}$ litre	$\frac{1}{4}$ litre	
cup					
jug					
bucket					
juice carton					
bottle of cola
