

Area – Estimating

Area means the **total size** of the flat surface.

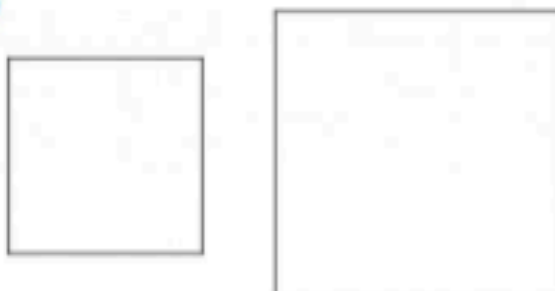

1. Look at each pair of surfaces.
Which has the **larger** area? Colour it **orange**.

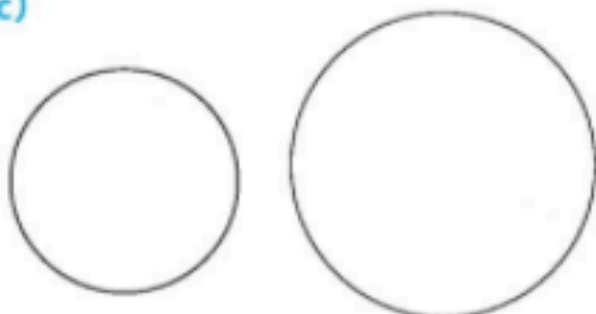

(a)

(b)

(c)

(d)

2. Use playing cards to cover the surface of your maths book.
Estimate how many it will take first.

(a) My estimate

(b) My measure

3. Use copybooks to cover your rectangular table.
Estimate how many it takes before you start.
Then measure.

(a) My estimate

(b) My measure
