Litrigh É Linn: Pg 40. Revision of all spellings (Parent/older sibling may administer test if available)

Maths Pg 92 (QS 7-12 in your copies. **READ THE QUESTIONS!**)

Tables: 6 times division tables revision

Dear Parent,

Again this week the work is in the same format so if possible try and print out the sheet above so the children have that as their guide. **The main focus of the children's additional work this week should be completing the work for Engineers Week:**

Seesaw:

Same plan this week; I will be posting activities every morning. (Note activities and Irish videos with instructions in activity section, Maths and Literacy video tutorials in Journal section!) I will also be adding a creative writing activity this Tuesday. For Engineers Week there will be activities on Wednesday and Thursday and all the details are below.

STEM Activities (Engineering Week)

It is STEPS Engineers Week next week (Feb 27th-Mar 5th). I will be posting two activities for the children on Wednesday and Thursday and it would be great if your child could complete at least one of them. We as a school are putting together a folder of all the children's work for this week and if you could please send me on a picture of your child's work to add to this. **Its pictures not videos I'm hoping for and if possible send them on as a screenshot via email rather than uploading them to Seesaw.**

Reading/Literacy:

I think each student should try to read for half an hour each day. **The children should all aim to take a test this week.**

- To access their AR login at :<https://ukhosted11.renlearn.co.uk/6657860/> (if anyone has forgotten their passwords I can forward them onto them)
- If anyone wants to check out how much points their book is/ZPD level they can do so at <https://www.arbookfind.co.uk/UserType.aspx?RedirectURL=%2fdefault.aspx>
- If you are looking for additional reading resources this website was pointed out to me by another member of staff : https://www.oxfordowl.co.uk/for-home/find-a-book/library-page/?view=image&query=&type=book&age_group=Age+9-11&level=&level_select=&book_type=&series=

Gaeilge: The children may find the following vocabulary a help for their work this week:

Page 129: na lachan=the ducks, slat =rod, dorú=fishing line

Page 125: gléasta=dressed, carbhat=neck-tie

Page 126: cleití=feathers, an raic=the row

Maths:

We will be looking at Division all this week. A maths website I highlighted last week is ixl maths. It's a great website I think and there's some really useful skills taught here for Division which we are doing this week. The link to access it is <https://ie.ixl.com/math/class-4>. (The Divisibility rules in particular are well worth having a look at!)

PE: Continue with our 100 pucks a day! (I will upload the link on Seesaw for this week's coached GAA video). Donna Dunne will continue with her live sessions this week after taking a break for the midterm last week. **Something I mentioned before was School Fitness Ireland.** They're an after school service which have made all their classes free for the month of February. If you haven't checked it out already the link for free classes is:

<https://club.schoolfitnessireland.com/register/free-access-until-feb-28th-2021/>

Social Zoom Call: I will host two social Zoom calls again this week, same days and times as previous:(Boys on Wednesday at 5pm and Girls on Thursday at 5pm).

Finally if there's anything anyone wants help with or is worried about feel free to email me at pflood@stlachtainsns.ie and I will get back to you as soon as possible. **If there's any additional time available and a device free this week please encourage your child to take an AR test!**

Regards, Mr.Flood.
