

**A** Think of these objects in real life. Colour.

1. Colour the objects less than  $\frac{1}{4}$ m in height **red**.
2. Colour the objects more than  $\frac{1}{2}$ m in height, but less than 1m in height **green**.
3. Colour the objects more than 1m in height **blue**.

**B** Choose either a bead or a straw. Use them to measure the following.

1. The distance from my big toe to my heel is .
2. The distance from my wrist to my elbow is .
3. The length of my thumb is .
4. The length of my nose is .
5. The distance from the tip of my finger to my knuckle is .
6. The width of my hand is .
7. The length of my arm is .
8. The length of my leg is .

**C** Estimate and measure your table with different objects.

object	estimate (length)	measurement (length)	estimate (width)	measurement (width)
straws				
lollipop sticks				
cubes				
paper clips				
copybooks
